The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 8 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed by the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph. The mouth of the rain-gauge is one foot above the ground.

a, dew; o, overcast; t, thunder; p, passing temporary showers; d, drizzling rain; g, gloomy.

Secy. to the Govt. of Bengal.

No. 42C., dated Foreign Office, the 1st July 1897.

From—GEORGE CURZON, Esq.,

To—The Under-Secretary of State, India Office.

I AM directed by the Secretary of State for Foreign Affairs to transmit to you, to be laid before the Secretary of State for India, the accompanying copy of a despatch as marked in the margin enclosing the Italian Maritime Sanitary Ordinance No. 5, intended to obviate delays to vessels arriving in Italy from India.

No. 42C., dated Rome, the 26th June 1897.

From—FRANCIS CLARE FORD, Esq.,

To—The Marquess of Salisbury, K.G., &c., &c., &c.

I HAVE the honour to transmit herewith to Your Lordship a copy in triplicate, together with a translation of the Sanitary Maritime Ordinance marked No. 5, undated the 20th instant, which I have received from the Department for Foreign Affairs.

The present Ordinance has been made with a view to preventing, as far as possible, delays to vessels arriving in Italian ports from infected districts in India.

It will now be possible for the owners and Captains of vessels to enlist the services, should they desire it, of Italian medical officers who would accompany the vessels from Port Said to the Italian ports to which they may be bound, and thus the delay to those vessels arriving there would be almost nominal.

##### *Ministry of the Interior.*

1897.—Sanitary Maritime Ordinance No. 5.—For the purpose of affording shipping and trade all the facilities consistent with the requirements of the Sanitary Service and particularly for the purpose of avoiding delays in granting free pratique to steamers which, though free from disease, have to undergo medical inspection and disinfection for the sole reason of their coming from a place infected by plague.

Seen the Law of 22nd December 1888, No. 5849 (3rd series), for the protection of hygiene and public health.

*The Minister of the Interior decrees:*—In cases when the owners or masters of steamers coming from Indian ports specified in the Maritime Sanitary Ordinance of the 1st of May last, and bound for Italy, make a formal application to that effect, a doctor, to be appointed in each case by this Ministry, can be embarked on such steamers at Port Said.

*Section 2.*—The said doctor will be entrusted with the general sanitary surveillance on board the ship during the crossing from Port Said to the Italian ports of destination, and within 24 hours preceding the arrival of the steamer in an Italian port, he is to ascertain that the disinfection of the soiled articles of wearing or domestic apparel has been carried out, and will proceed to a medical examination of all persons on board.

*Section 3.*—It will besides be the doctor's duty to lodge, with the Harbour authorities on arrival of the steamer, a written declaration showing the hygiene and sanitary conditions on board, and suggesting the treatment to be adopted. Should everything prove to be in good order, the steamer will, as far as the sanitary formalities are concerned, be admitted

to free pratique. Should, however, any abnormal circumstance have been detected, the steamer will in that case have to undergo all those measures which are in respect of the various cases set forth in the Sanitary Maritime Ordinances now in force.

*Section 4.*—The above-mentioned doctor will be entitled to passage and first-class fare on board, free of charge, and his fee, which in each case shall be fixed with the approval of this Ministry, will be defrayed by the Masters of the Steamers.

*Section 5.*—The dispositions of Sanitary Maritime Ordinance of 8th May last, No. 3, remain unchanged in their substance, as the present Ordinance is meant only to modify the formalities regarding the carrying out of the medical inspection and of the disinfections of such steamers as were constantly in a normal condition from the time of their departure to that of arrival.

The Prefects of the Maritime Provinces and the Harbour authorities of the Kingdom are charged with the execution of the present Ordinance.

For the Minister,

BERTARELLI.

**Imports.**—During the period under report, the imports of rice amounted to 201,799 cwts., against 20,810 cwts. in the last 10 days of July 1896. The amount coming from Burma was 175,130 cwts., against nil in the corresponding period of last year. Chandbali sent only 9,312 cwts., against 17,926 cwts. in the last 10 days of July 1896, while the imports from Balasore showed a slight increase of 3,753 cwts. The imports from the Straits Settlements amounted to 5,809 cwts., against nil in the corresponding period of last year. Supplies of paddy rose from 6,731 cwts. to 16,833 cwts., owing chiefly to large imports from Burma. Gram and pulses were imported from Madras, Burma, and the Straits Settlements.

The exports of rice from Calcutta to foreign ports declined from 116,556 cwts. in the last 10 days of July 1896 to 12,615 cwts. in the period under report. The decline was chiefly due to the absence in 1897 of shipments to Réunion, Natal, Cape Colony and Mauritius, to which ports 47,262 cwts., 18,853 cwts., 6,279 cwts., and 3,865 cwts. respectively were exported in the 10 days ending 31st July 1896. The despatches to Ceylon fell from 27,687 cwts. to only 1,180 cwts., while those to the United Kingdom increased by 3,497 cwts. The decrease under gram and pulses and miscellaneous food-grains was chiefly due to the cessation of exports to Mauritius and Natal.

As regards Indian ports, the exports of rice to Bombay during the 10 days ending 31st July 1896 amounted to 13,439 cwts., and in the period under report to only 1,005 cwts. Under gram and pulses, Bombay received nothing as against 2,738 cwts. in the corresponding period of last year, while the decline in the exports to the Madras ports amounted to 6,762 cwts.

Detailed statements showing the sources of supply and the places of destination, both as regards Foreign and Indian ports, are given below :—

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 3 feet higher at Alipore, and, other things being equal, reads therefore .003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0.6° higher; and, finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0.6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h., 16h., and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86 formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beekley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers.

No. 1669.—The following letter from Her Majesty the Queen, Empress of India, published in the Supplement to the *London Gazette*, dated the 16th July 1897, is republished for general information:—

*Whitehall, July 16th, 1897.*

The following letter from The Queen has been received by the Right Honourable the Secretary of State for the Home Department:—

*Windsor Castle, July 15th, 1897.*

I have frequently expressed my personal feelings to my people, and though on this memorable occasion there have been many official expressions of my deep sense of the unbounded loyalty evinced, I cannot rest satisfied without personally giving utterance to these sentiments.

It is difficult for me on this occasion to say how truly touched and grateful I am for the spontaneous and universal outburst of loyal attachment and real affection which I have experienced on the completion of the Sixtieth year of my reign.

During my progress through London on the 22nd of June, this great enthusiasm was shown in the most striking manner, and can never be effaced from my heart.

It is indeed deeply gratifying, after so many years of labour and anxiety for the good of my beloved Country, to find that my exertions have been appreciated throughout my vast Empire.

In weal and woe I have ever had the true sympathy of all my people which has been warmly reciprocated by myself.

It has given me unbounded pleasure to see so many of my subjects from all parts of the World assembled here, and to find them joining in the acclamations of loyal devotion to myself, and I would wish to thank them all from the depth of my grateful heart.

I shall ever pray God to bless them and to enable me still to discharge my duties for their welfare as long as life lasts.
